Enterprise Vehicle (EV) List U.S. Securities and Exchange Commission (SEC)

This following list is provided as general information on current contract vehicles for potential enterprisewide use at the SEC. This list is provided for informational purposes only, to allow companies interested in supporting the SEC the opportunity to track active agreements and identify current contract holders for potential teaming and/or subcontracting opportunities.

In alignment with Category Management principles, these enterprise-wide contract vehicles were established to leverage the SEC's buying power for various supplies and services, avoid potential waste through duplicative contract actions, and promote opportunities for small businesses.

Note: If you are interested in obtaining additional information pertaining to SEC contracts, you must make a request through the SEC's Freedom of Information and Privacy Act (FOIA) Office. See FOIA link at the bottom of the sec.gov webpage. Please note that for privacy reasons, federal law prohibits some contract information from being released to the general public, and only information on awarded contracts is allowed to be released.

Contrast Valida Name	Contract Vehicle Description	Contract Number	End of Association 1	Contract Colling	Mandar Nome	Vendor POC	Vendor Contact Info
