

Appendix I

Order Types and Session Availability

24X Equities Exchange: Order Types and Session Availability

The Exchange is able to accept three main order types: Market Orders, Limit Orders and Pegged Orders. A Retail Order can be any of the three main order types, depending on the session in which it is placed. The availability of these order types across the Exchange's different trading sessions is set out below. Members are also able to apply Modifiers and Time in Force instructions, depending on the order type and the trading session.

Modifiers:

- Intermarket Sweep Orders (**ISO**)
- Reserve Quantity (**Reserve**)
- Non-Displayed
- Minimum Execution Quantity (**MEQ**)
- Post Only
- Book Only
- STP Modifiers (**STP**)

Time in Force instructions:

- Day
- FOK
- IOC
- Day+

In the table below, the available Modifiers are denoted in **blue** and the available Time in Force instructions are denoted in **green**.
