Ref: SEC's Fair Fund resulting from deVere USA Litigation

Dear Sirs

I was contacted by deVere USA in early 2016 about transferring UK pension funds into a QROPS.
The transfer was completed mid 2016.

I was not aware that deVere was compensating another deVere company overseas for advice, recommendation or other services and that this company in turn was compensating deVere investment advisers.

I was similarly unaware of any other conflicts of interest that contravened any US or UK laws.

I have entrusted the management of my QROPS to another company but still have custodial and trustee relationships established by deVere USA.

I request inclusion for consideration in any distribution of the SEC's fair fund.

Sincerely

Gillian Crockett
