Rules of BATS Exchange, Inc.

## CHAPTER XI. TRADING RULES

\* \* \* \* \*

## Rule 11.9. Orders and Modifiers

Users may enter into the System the types of orders listed in this Rule 11.9, subject to the limitations set forth in this Rule or elsewhere in these Rules.

(a) – (b) (No change).

(c) Other Types of Orders.

(1) Reserve Order. A limit order with a portion of the quantity displayed (“Display Quantity”) and with a reserve portion of the quantity (“Reserve Quantity”) that is not displayed. Both the Display Quantity and the Reserve Quantity are available for execution against incoming orders. If the Display Quantity of an order is reduced to less than a round lot, the System will, in accordance with the User’s instruction, replenish the Display Quantity from the Reserve Quantity using one of the below replenishment instructions. If the remainder of an order is less than the replenishment amount, the Exchange will replenish and display the entire remainder of the order. A User must instruct the Exchange as to the quantity of the order to be initially displayed by the System (“Max Floor”) when entering a Reserve Order, which is also used to determine the replenishment amount, as set forth below. A Reserve Order that is to be re-routed pursuant to the Post to Away routing option set forth in Rule 11.13(b)(3)(H) will be identified as a Reserve Order when routed to an away Trading Center.

(A) – (B) (No change).

(2) – (10) (No change).

(11) Non-Displayed Order. A market or limit order that is not displayed on the Exchange. A Non-Displayed Order that is to be re-routed pursuant to the Post to Away routing option set forth in Rule 11.13(b)(3)(H) will be identified as a Non-Displayed Order when routed to an away Trading Center.

(12) – (19) (No change).
