Rule 11.10. Order Execution

\* \* \* \* \*

*Interpretations and Policies:*

.01 The Exchange offers certain risk settings applicable to a User's activities on the Exchange. The risk settings currently offered by the Exchange include:

(a) – (h) No Change.

.02 (a) [In addition to the risk settings enumerated above, t]The Exchange also offers risk functionality that permits Users to block new orders submitted, to cancel all open orders, or to both block new orders and cancel all open orders. Furthermore, the Exchange offers risk functionality that automatically cancels a User's orders to the extent the User loses its connection to the Exchange.

(b) A "Purge Port" is a dedicated port that permits a User to simultaneously cancel all or a subset of its orders in one or more symbols across multiple logical ports by requesting the Exchange to effect such cancellation. A User initiating such a request may also request that the Exchange block all or a subset of its new inbound orders in one or more symbols across multiple logical ports. The block will remain in effect until the User requests the Exchange remove the block.
